BELDT'S AQUARIUM

2141 CRESCENT AVE.
St. LOUIS, MO.

THE PEP COLLECTION NO. 6:

All of these varieties are extremely lively and swim rapidly and are constantly moving. They combine beautiful colors with peaceful habits and extreme hardiness, unaffected by temperature changes and the common disease "ich". We offer this collection to beginners as they require very little care. The illustrations are slightly larger than shipping size. M signifies male and F female.

Our Exhibition and Shipping Department; including our main office are located in these buildings. (2141 Crescent Avenue)

Our retail department is open daily from 8 to 5, and Sunday mornings from 8 until noon. We are closed on all legal holidays.

VISITORS WELCOME. To reach our location, which is 6200 West and 2100 North, drive to 6200 Easton Avenue, then go North seven blocks on Kienlen Avenue to Bailey Place and one block West on Bailey Place to Crescent.

Via Street Car, take any car to Wellston, and transfer on St. Peters bus to Crescent Ave

It is Fun to Raise Tropicals

YOU are missing something tremendously interesting and educational if you do not know the pleasure and pastime afforded in water gardening, whether it be an outdoor lily pool or an indoor aquarium. You will be surprised how easy it is to keep and raise tropical fish; in fact, all you have to do is feed them and keep the aquarium at the proper temperature. Lots of them raise themselves. Many of these tropical fish are born alive.

Five minutes after a Guppy or other live bearer are born they can swim and eat and take care of themselves. In the aquarium you find mother love with much devotion, as the mother Mouthbreeder carries the eggs in her mouth for 12 days until they hatch, during which time she does not eat. In the aquarium you find romance as the Indian Paradise fish embraces the female under the bubble nest. These aquarium wonders are enjoyed by every member of the family.

The aquarium also presents courage as the Chanchito fights all enemies to protect its flock of young, and it takes you heaven-ward if you view the majestic Angel fish in its aquatic surroundings. Aquatic life presents new wonders to the beginner. The study and care of the aquarium opens an entirely new world of interest.

THE LILY POOL. There isn't anything more fascinating if you watch the goldfish darting among beautiful colored water lilies. A lily pool is very simple to construct and to care for. It need not be a large expensive pool. Pools can be made with but very little expense and in almost any corner of the back-yard, and can be made to look attractive. Do not overlook the possibilities of having and enjoying your own pool next Spring. Let us give you an estimate of the cost, and you will know that you too can afford to own a pool.

Bird's Eye View of Our Hatchery

Our hatchery is not open on Sunday or legal holidays.

The 6 greenhouses in this photograph cover a floor surface exceeding 15,000 square feet. Many visitors come here from all parts of the country. Try our plants, fish, and supplies, and be convinced that the cheapest merchandise is not always the cheapest in the long run. Many people when getting a start with tropical fish or with a lily pool make the mistake of buying the cheapest merchandise that can be had with the results that their venture is a total failure. When you order from us a shipment of tropical or goldfish, water plants, water lilies or a glass aquarium, this merchandise is fully guaranteed and you are fully protected. The tropical water lilies which we send out are grown in 5" pots and are only waiting for you to be carried outdoors to blossom. A cheap fish aquarium may only last a very short time, and leak. We do not make an aquarium that is so low in

quality that we could not make just as large a tank cheaper. We do not specialize in cheap fish aquariums, and we could not give you an unconditional guarantee of satisfaction, if we did not consider the quality.

Do not hesitate to ask us for information. We are only too glad to give you the necessary information to make your venture a success. Join the thousands of satisfied customers, and mail your next order to us, and be convinced of the superiority in our merchandise.

We receive testimonials every day from people who are really surprised that such good service can be given.

We shall endeavor to deserve your future business, and we wish to thank you very much for past favors.

Submerged Plants for the Aquarium

Miriophyllum Spatterdock Cabomba Vallisneria Ludwigia

The health of the fish in the aquarium depends on the plant life therein to a large extent. A healthy plant growth will produce strong and vigorous fish. Vallisneria, Sagittari and Anacharis are the best oxygen producing plants and 50% of plants used in an aquarium should be these strong oxygen producers the balance may be the less oxygen producing and more ornamental plants, such as Spatterdock, Cabomba, Ludwigia, etc.

	Each	Dozen	100
Vallisneria (Italian)		\$0.40	\$2.00
Vallisneria Gigantea (Italian) 2 1/2 to 3 feet long		1.00	4.00
Anacharis Gigantea (Cultivat- ed Elodea), per bunch	\$0.10	1.00	5.00
Sagitteria Natans10	.75	4.00
Sagitteria Sinensis10	.75	4.00
Sagittari Subulata, the dwarf variety. The narrow dark green leaves grow about 4 inches long		0.35	2.50
Potamogeton, A pretty foliage plant similar to Ludwigia with longer leaves	0.15	1.50

Dwarf Elodea. An ideal plant for small aquariums. Good oxygen producer.
Each \$.10 Per dozen \$1.00

Potamogeton Densus. Without question the finest plant for the protection of baby tropicals, especially live bearers. It will grow as a beautiful floating plant similar to Bladderwort; however grows much better and under average home condition is unquestionably the finest densely growing plant.

Per portion \$.50

Beldt's Reliable Aquarium Remedies

Beldt's Fungus Remedy

Postpaid \$.50 per 1 oz. bottle; \$2.75 per pint; \$5.00 per quart.

This is the most effective remedy for fungus, tailrot, and especially ichthyophthirius on tropical fish. Symptoms: Folded fins, fish wiggle, and seem to be unable to swim, scratch themselves on sand. Tropical fish have tiny white spots on bodies—cotton-like growth. This remedy should be on hand as these diseases are contagious and spread rapidly. Complete directions with every bottle.

Aqua-Grassycum. A remedy for sick fish. A powder which also stimulates plant growth in the aquarium and neutralizes acids.
Small tube \$. 25 Large tubes \$.35
Postpaid. Directions with every package.

Potassium Permanganate. Destroys algae and clarifies green water in aquariums and outdoor pools. Also a good remedy for tailrot on goldfish. Complete directions with every bottle.
4 oz. Bottles \$.35 Postpaid.

Turks Island Salt. A solution of two level tablespoonfuls of Turks Island Salt per gallon of water makes a tonic which is beneficial to all minor ills. Fish should be left in this bath for several days.
Per Pint Cartons \$.35 Per Qt. Cartons \$.50

BELDT'S GOLD AND TROPICAL FISH TONIC
Price Per Can \$0.30

This tonic may be used for sick as well as healthy fish. Its main purpose is to create pure water conditions and keep aquariums free from disease. It is a remedy for sick fish, and a good tonic for well fish. It is greatly advisable to use this tonic when starting a new aquarium. Complete directions with every carton.

FISH LICE TABLETS

A newly discovered remedy that destroys hydra and fish lice. Use one tablet for each 8 gallons of water. Gambusia affinis, a small fish sold at 50c per pair, can also be used to destroy fishlice in outdoor pools, they are fond of them and eat them. Price of Tablets, 10c each; per dozen 75c, per 100 \$5.00.

These Foods Insure Healthy Fish

Demand our prepared fish foods from your local dealer. If he doesn't stock our fish foods, we will gladly ship to you direct and we will, of course, be glad if you will supply us with your local dealer's name and address so we can request him to stock it for you.

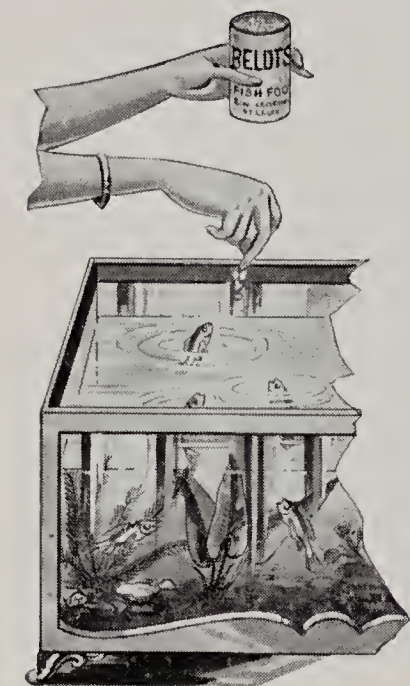

Fishfoods

A good fishfood is essential to keep the fish in good health. Silver Brand Fishfood will settle the question. The best money can buy, the finest Tropical Fishfood on the market today. It is sold in cans $3\frac{3}{4}$ inches high and 2 inches in diameter. A good supply.

Beldt's Silver Brand Fishfood, prepared for tropical fish, does not contain any kind of flour or meal in any form in order to produce quantity instead of quality.

	Per lb.	Per Can
Silver Brand, medium, for larger		
Tropicals, Scalare, etc.	\$1.50	\$0.50
Silver Brand, fine, for Guppyi,		
Platy, Danio, etc.	1.50	0.50
Silver Brand Goldfish Food	0.75	0.25
Dried Daphnia (pure)	2.75	0.35
Dried Shrimp	0.75	0.25
Ant Eggs		0.15
White worms (Enchytra) per portion		1.00

To propagate white worms, fill a small box about 12 inches square and 8 inches deep with good garden soil to a depth of 5 inches, keep a piece of slate or glass on top to keep soil from drying. Keep dirt moist. Feed mashed potatoes, boiled rice, bread soaked in milk. See that all food is covered with dirt. Breeding temperature best between 50 and 75° F.

Imported Japanese Shrimp: This imported shrimp is guaranteed to be the finest obtainable. It is a silky texture and very soft and guaranteed to be 100 per cent pure shrimp meat. Per lb. \$1.25
Per can50

Beldt's Silver Brand "Tonic Fishfood." This is especially prepared for fish in run down condition. It contains cod liver oil which is full of vitamin A and D. We can not recommend this food too strongly and if fed alternatively in conjunction with other foods at least twice a week, will prevent rickets which has a tendency to produce humpback fish. If your fish seem to be in a weakened condition and ailing for lack of vitamin, this Tonic will produce wonderful results. Per lb. \$2.00

Large cans, postpaid 0.50

Turtle Food, per can \$0.15

Fairy Shrimp: An ideal live food. They grow about $\frac{1}{2}$ inch long and can be propagated in half barrels. Will eat any kind of fishfood. Portion enough to start for Breeding including shipping can \$0.75

Live Daphnia \$1.00
Including Shipping Can

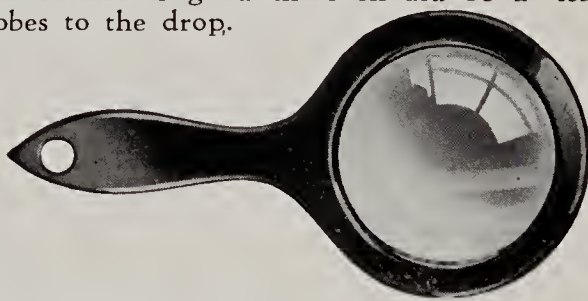

If you wish to raise your own daphnia, get a can of live daphnia and one package of our Infusoria Powder which is also used for raising daphnia. Complete directions with every package.

Brine Shrimp Eggs, 75c Per Carton, Postpaid
The eggs will keep indefinitely. Young hatch in 24 hours, and make ideal live food for tropicals. Full directions with each package.

Beldt's Silver Brand "Laxative Fishfood." This fishfood is especially prepared to prevent constipation. Many cases of so called dropsy are nothing more than constipation. Feed just like any other food until relieved. Price 35c postpaid.

Magnifiers

For testing Infusoria. Put a drop of Infusoria water on a piece of glass, hold light underneath. If the culture is good there should be at least 50 microbes to the drop.

Price of Magnifier, each \$0.75

SPECIAL OFFER

One large can of Magic Infusoria Powder with Magnifier \$1.00

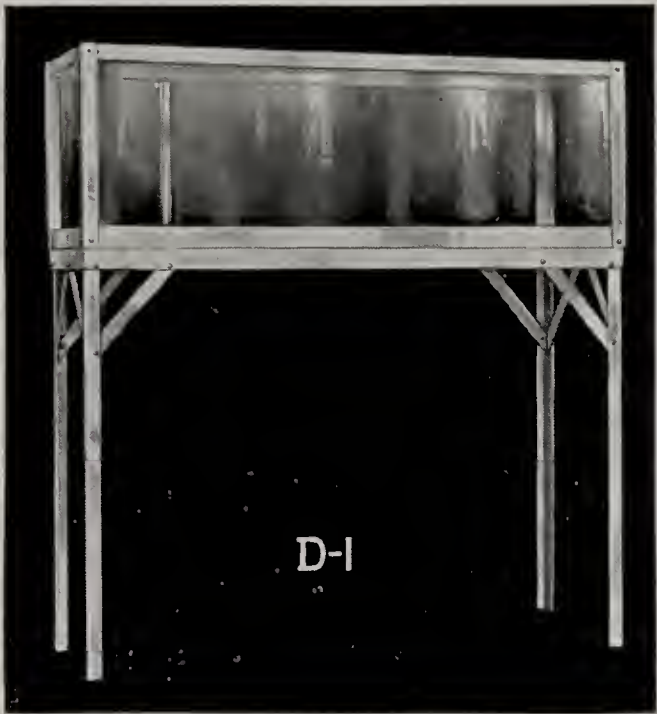

Complete directions to use this Infusoria Powder with the package.

Beldt's Magic Infusoria Powder: One eight-ounce box is enough to produce fifty gallons of infusoria. When breeding egg-laying tropicals or goldfish, the young, after they are able to swim, must be fed on infusoria. All young live bearing fish can be fed on infusoria for about ten days. This powder, which is guaranteed to produce the best infusoria culture, should be on hand. In case you do have some egg-layers to spawn, you will need these small infusoria microbes for food.

Price, per can \$0.50

Aquariums

Do not compare our aquariums with cheaper merchandise that cannot be guaranteed. We can make cheaper aquariums, but we could not guarantee you satisfaction.

Mermaids in Shells

Six Different Designs

They lend a fine charm to the whole display and are suggestive of all the fine ancient love of the sea. Price, each.....\$0.50

Size, ¾ in. high, 4 in. long.

Meramec Sand for Aquariums

It is very important to use the right kind of sand for the bottom of an aquarium. Meramec sand answers this purpose. White sand packs too tight and does not allow the roots of plants to grow right, on the other hand, if sand is too coarse fish food and refuse collect among same, causing water to decompose and getting cloudy. Meramec sand is put up in the following size packages:

Size	Each
10-lb. sack.....	\$0.50
25-lb. sack.....	0.75
50-lb. sack.....	1.20
100-lb. sack.....	2.00

Prices F. O. B. St. Louis

We can ship Meramec sand via freight; only if freight charges are remitted with order, as we cannot make C. O. D. charges for freight; however, we can ship Meramec sand via Express, Express charges collect.

Aquarium Cement

Fanciers desiring to make their own aquariums or those who have leaky aquariums will save money by sending for our aquarium cement.

Mix it with boiled linseed oil to the consistency of soft putty and apply. Boiled linseed oil that has been standing for a number of weeks should be recharged with a little Japan drier, as this drier dries out the oil when not in use for some time. Price, per lb.....\$0.40

Add 10 cents per lb. for postage and packing.

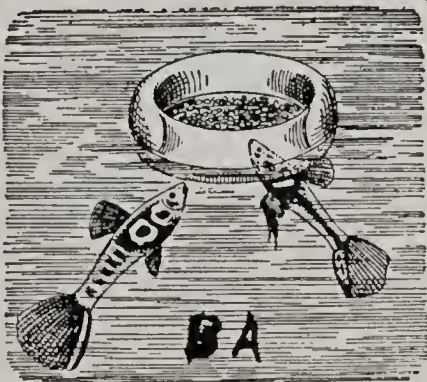

We also have a special gum oil which results in extra strong cement when mixed with our powder. One bottle of oil is enough for 1 lb. of cement.

Price, per bottle.....\$0.30

AQUARIUM CEMENT

Guaranteed Electric Aquarium Heaters

No. 1 Automatic with pilot light indicator has a double socket and two heaters can be used thermostatically for two different aquariums if desired. Also two heaters can be used in one aquarium, that is if the aquarium has a capacity of 50 gallons or more, two heaters would be necessary to heat it efficiently if the very large aquariums are kept in cold rooms. Each heater will heat aquariums from 10 to 45 gallon capacity. This emersion heater is constructed with a special chromalox element. The element is guaranteed for one year. No. 1 outfit furnished complete with one heater as illustrated price \$6.00. Additional heaters each \$2.75.

No. 2 Automatic for tanks from 5 to 30 gallon. Price each \$4.75.

No. 4 This is only a thermostat. Can be used for any heater you now have. Price each \$1.75.

No. 5 These heaters come in single watt for following size Aquarium. Don't forget to state gallon capacity of your aquarium or wattage desired. We can supply them as follows: for 2 to 4 gal. tanks 10 watt, 4 to 5 gal. tanks 20 watt, 6 to 9 gal. tanks 30 watt, 9 to 15 gal. tanks 40 watt, 16 to 25 gal. tanks 60 watt, 25 to 35 gal. tanks 80 watt. Any of these priced \$1.50.

The heating elements in No. 2 and No. 5 heaters can be replaced when burned out. Price of additional elements each 50c. Installation of elements very simple. Element in No. 1 heater guaranteed for one year.

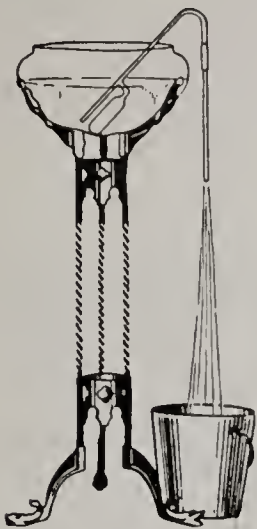

Ozark Coral

Ozark Coral is of volcanic origin and composed mostly of molten sand and tiff, the hollow spaces are filled with ocre, it is the removal of this ocre that gives the rock its natural and beautiful forms. True lovers of nature hesitate to use castles on account of being too artificial. Ozark Coral gives the desired natural effect in ornamentation.

Automatic Syphon

This simple little device automatically empties bowls and aquariums. Just put it in the water as shown in illustration and the water starts running on its own accord. It is much safer to carry an empty bowl than a full one.

Price, each\$0.75

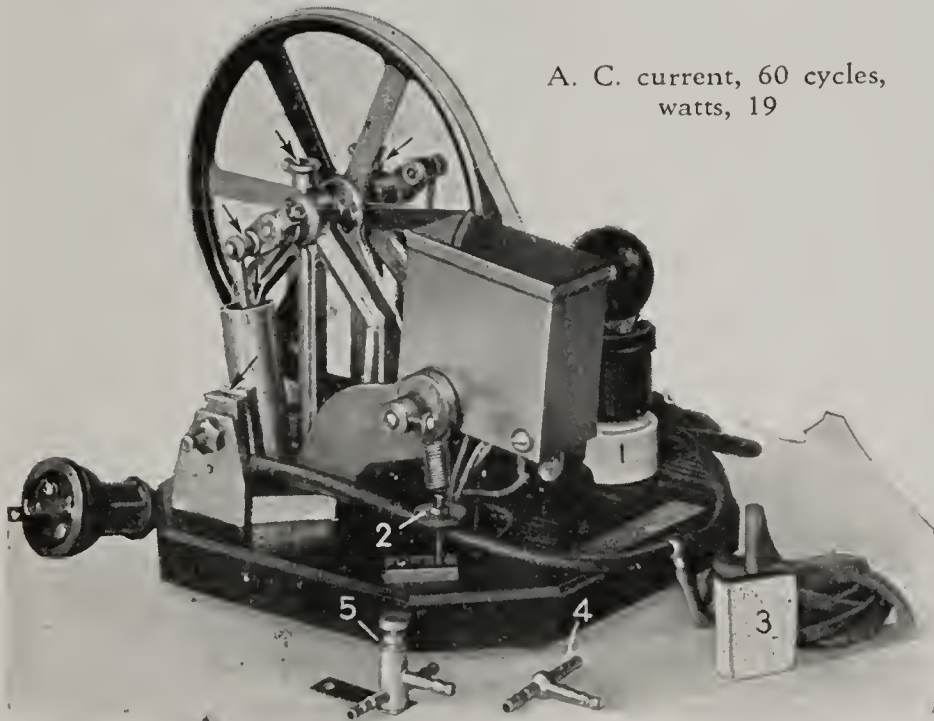

Colored Lily Pool Paint

We highly recommend Bondex Water proof Paint especially prepared for Cement walls and lily pools. After testing many materials manufactured for this use we selected "Bondex" as the best. If Bondex is mixed properly and applied according to complete directions which are furnished with every can it will last as long as the pool itself and forms a part of the pool and not merely a surface coating. It is ideal for stopping leaks on pools. Bondex contains no poisonous chemicals however on account of lime content pool must be seasoned with change of water before placing fish in same. Bondex Water Proof Pool Paints can be supplied in following colors:

OLD SPANISH WHITE, BLUE, GREEN

Price per 5 lb. can for all colors except green \$2.50
Price per 5 lb. can, Green..... 3.00

DIRECTIONS:—Five lbs. of Bondex Pool Paint will cover 50 square feet. Sold only in 5 lb. cans and we can not supply this in any other quantity. You will find complete directions for use with every can.

A. C. current, 60 cycles, watts, 19

Asphaltum Enamel

A new pool does not have to be seasoned if the pool is painted one coat of asphaltum enamel. The concrete walls must be perfectly dry when applying this enamel. Just give it one good coating, let it dry 24 hours and it is ready to be filled. Black asphaltum enamel also has the advantage of keeping algae from forming on the walls. We can supply this enamel in black, green and blue.

Supreme Air Pump

Complete directions with every pump.

The aeration in your aquarium is most important. This air pump is fully guaranteed and automatic with Westinghouse built-in Watchman Thermostat. They are set to run about 40 minutes in an hour, however are easy adjusted to run longer or shorter durations.

Just What Shall I Plant Near the Lily Pool?

This is a question which is asked very often and at times hard to decide. The answer is that such perennial plants that usually thrive along the banks of streams or ponds are best adapted for artificial plantings near the pool; the ground around the pool naturally is bound to contain more moisture, especially if the soil is light and loamy. We have listed on this page a few old favorites, with which you can carry out the desired natural effect. It is best to plant more in groups, so as to leave open spaces near the pool.

Blue Siberian Iris (*Iris siberica*)—Of easy culture and very free flowering, very good for naturalizing and planting near water.

Each \$0.15

Per dozen \$1.50

German Iris—Iris are ideal plants for edging or planting among rocks. Assorted colors.

Each \$0.10

Per dozen \$0.75

Blue Flag (*Iris versicolor*)—A tall growing iris, producing beautiful blue flowers, the sword-shaped leaves resembling the Japanese iris.

Each \$0.15

Per dozen \$1.50

Yellow Flag (*Iris pseudacorus*)—Very similar to blue flag, with large yellow flowers.

Each \$0.15

Per dozen \$1.50

Lobelia Cardinalis (Cardinal Flower)—A very hardy and attractive native plant, seen along lowland and streams.

Each \$0.25

Per dozen \$2.50

Chinese Hibiscus (*aurantiacus* and *carmiratus*)—Red and pink. Two wonderfully improved varieties, producing flowers about 10 inches across. Very hardy and equally at home in wet or dry soil.

Each \$0.25

Per dozen \$2.50

Spirea Ulmaria (Meadow Sweet)—Adapted best to moist loamy soil, plumes snow white, blooms July and August (2 feet).

Each \$0.25

Per dozen \$2.50

Variegated Ivy—A very attractive plant with green leaves which show large blotches of distinct white and yellow and orange colors. Strong plants.

Each \$0.35

Per dozen \$3.50

Sedums—These plants are great favorites and the green low-growing foliage is covered with many variegated colored flowers. They are very good for planting among rocks near edge of pool. Assorted colors and varieties.

Each \$0.10

Per dozen \$1.00

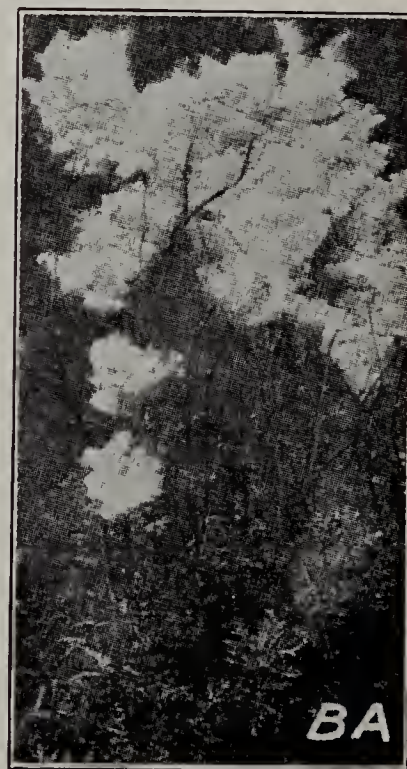

Hardy White Hybiscus, Chinatown—New white variety, producing large pale flowers six to eight inches across. Very hardy.

Each \$0.50

Per dozen \$5.00

Iris Siberica

Spirea Ulmaria

Lilium

Hardy Lilies to Glorify Your Lily Pool

They are the aristocrats of border plants and lend a fine effect to the whole display. They will thrive in any kind of loamy soil and love a lot of moisture. They should be planted about 8 inches deep.

Lilium Regale, large trumpet shaped white flowers with yellow shading in center; very fragrant. Grows about 3 feet high.

Each \$0.30

Per dozen \$3.00

Superbum, grows from 3 to 5 feet high; flowers brilliant orange-red.

Each \$0.30

Per dozen \$3.00

Lilium Tenuifolium, fire-red, bell-shaped flowers, grows about two feet high.

Each \$0.25

Per dozen \$2.00

Funkia Variegata, the foliage is green and variegated with broad white stripes. Clusters of purple flowers are produced in September on stems about 2 feet tall.

Each \$0.25

Per dozen \$2.50

Lilium Regale

Speciosum Rubrum, a very popular variety; color rosy white with crimson spots; blooms June and July.

Each \$0.40

Per dozen \$4.00

Longiflorum Giganteum, the flowers are trumpet shaped and white. Blooms June and July (2 feet).

Each \$0.35

Per dozen \$3.50

Tigrinum Splendens, orange-red spotted with black; June and July (4 to 5 feet).

Each \$0.25

Per dozen \$2.00

Tigrinum Flora Plena, same color with double flower. Blooms June and July (4 to 5 feet).

Each \$0.30

Per dozen \$3.00

Auratum (Golden banded), flowers very fragrant; color pale ivory with crimson, chocolate spots. Blooms July to September (3 to 5 feet).

Each \$0.30

Per dozen \$3.00

Lily of the Valley, This is an old-fashioned favorite, growing about 8 inches high. Clusters of bell-shaped tiny white flowers are produced on single stems. If grown in a sunny position they require lots of moisture. Can also be grown on north side of house or under large shade tree where the sun does not shine. Strong bulbs.

Each \$0.05

Per dozen \$0.50

Dwarf Irises, Yellow, Blue, Orange, Purple, Dark Blue and White. This Iris grows about 6 inches tall; most ideal among rocks.

Per dozen \$2.00

Speciosum Rubrum

Ornamental Grasses and Hemerocalis

(Day Lilies)

Make Ideal Border Plants for the Lily Pond

Especially the Hemerocalis love a lot of moisture. For good effect Hemerocalis and ornamental grasses are indispensable for landscaping your water garden.

Hemerocalis fulva, grows from 2 to 3 ft. high with brick red flowers.

Hemerocalis flava, yellow day lily, grows about 2½ ft. high and blooms early in June.

Hemerocalis kwanso, same as flava with double flowers.

All Prices for Hemerocalis	
Each	Dozen
\$0.20	\$2.00

Hardy Ornamental Grasses

Arundo Donax Variegata, a very strong growing grass, producing a broad green foliage with various white stripes, attains a height of 10 to 12 ft.
Each \$0.75

Eulalia Japonica, this variety grows about 5 ft high with light stripe through center.
Each \$0.35 Per dozen \$3.00

Gynerium Argenteum, pampas or plume grass. One of the best of all grasses producing very large silvery plumes on stems which grow about 8 ft. tall.
Each \$0.75

Eulalia Gracillima (Japan Rush), the narrow leaves are green with silver stripe in center (4 feet).
Each \$0.25 Per dozen \$2.50

Japonica Variegata, the leaves are striped green and white (4 feet).
Each \$0.30 Per dozen \$2.50

Phalaris A. Variegata (Ribbon Grass), creamy white stripe on green leaf (2 ft. high), good for edging.
Each \$0.25 Per dozen \$2.50

Festuca Glauca (Blue Fescue), the foliage of narrow leaves is distinct blue-green (1 ft.).
Each \$0.25 Per dozen \$2.50

Pennisetum. These slender grasses are extremely ornamental. This grass can be had in a light green and a dark green shade. The light green produces delicate silvery plumes, and the dark green produces blue silvery plumes. The most ornamental grass for edging pools.
Each \$0.35 Three for \$1.00

PANDANUS

These beautiful variegated plants with sword shaped leaves make ideal rock plants during summer and are very hardy indoors over winter.

Pampas or Plume Grass

Beldt's Quality Water Lilies Always Grow

Mr. Martin Vander Vaer is well pleased with plants received from us.

Following letter received from Mr. Vander Vaer:—"Please send me at once your large collection of plants, also your book, "Tropical Aquariums and Water Gardens."

Also please find enclosed a picture of my pool for which you furnished me lilies, fish, and plants, and I do not hesitate to say that they were the finest blooms around here. We had lilies from early July till November. Some had 9 and 10" blossoms.

Yours truly,

Martin Vander Vaer
New Haven, Conn.

It is easy to make a small lily pool like this illustration with the use of a white cedar tub.

Nelumbiums
(Egyptian Lotus)

This photograph was taken by Mr. William G. Schumm, La Porte, Indiana. Mr. Schumm is well pleased with the Egyptian Lotus he received from us, and he advises that he left the plant out in the water tub all winter without any protection.

Special Pool collection as seen in illustration.

- 3 Ornamental Grasses
- 1 Water Taro
- 1 Chromatella
- 3 Water Hyacinths
- 2 Water Canna
- 2 Oxygenating Plants

Special Price

Without Tub \$2.25

With Tub 4.25

White Cedar Tubs

These white cedar tubs are 24 inches in diameter and 12 inches deep, and make ideal natural pools. Just dig a hole in the ground, and you are ready to plant your water garden.

Price of White Cedar Tubs, Each \$2.25

Complete Collection without tub 2.65

Bog Plants for the Edge of the Lily Pool

These plants grow best in shallow water near the edge of pool. If planted in boxes or flower pots in concrete pools, boxes should be raised within 2 to 4 inches below water surface.

Water Taro

Cyperus Papyrus (paper plant), grows from 4 to 6 feet high, produces a tuft, a top resembling a feather duster.

Each\$0.35

Parrot Feather, the long trailing stems produce a beautiful light green foliage, good for the ends of pools.

Each \$0.10 Per dozen \$1.00

Giant Arrow Head (*Sagittaria sagittifolia*), the large arrow shaped leaves stand two feet above water. The white flowers are carried on long center spike.

Each \$0.25 Per dozen \$2.00

Cat-tail (*Typha Angustifolia*), a well-known native swamp plant.

Each \$0.20 Per dozen \$2.00

Umbrella Palm (*Cyperus alternifolius*), a well-liked plant which produces an umbrella like tuft on each stem.

Each \$0.25 Per dozen \$2.00

Thalia Dealbata, a hardy bogplant with stately canna-like leaves. Grows 2 ft. high with purple flowers.

Each\$0.50

Thalia Divaricata, a newer variety, grows 5 ft. high, producing large clusters of purple flowers.

Each\$0.75

Floating Heart (*Nymphoides Peltatum*), grows like a miniature water lily and produces an abundance of small yellow lacy flowers about 1 in. across.

Each \$0.25 Per dozen \$2.00

Pickerei Rush (*Pontederia Cordata*), this canna like plant with arrow shaped leaves grows about 2 ft. high and produces long spikes of blue flowers.

Each \$0.15 Per dozen \$1.50

Water Poppy, this nymphaea like aquatic produces a continuous mass of yellow flowers, the leaves are deep green and very smooth and float on the surface.

Each \$0.15 Per dozen \$1.25

Marsh Marigold (*Caltha palustris*). Clusters of large butter-cup-like flowers of brilliant yellow, early in spring. One of the most attractive native plants. Hardy.

Each \$0.20 Per dozen \$2.00

Purple Water Iris, this iris grows in shallow water or moist soil, about 2 ft. tall. Flowers purple blotched with pale yellow near center.

Each \$0.25 Per dozen \$2.50

Water Snowflake, a lily like plant that produces an abundance of tiny white flowers which grow from the centers of leaves.

Each \$0.25 Per dozen \$2.50

Canna Flacidda, an aquatic canna producing yellow flowers; this plant grows about 2 ft. high and does well in shallow water.

Each \$0.25 Per dozen \$2.50

Lizard's Tail, a pretty plant for shallow water, producing fragrant white flowers, grows 2½ ft. high with heart shaped leaves.

Each \$0.20 Per dozen \$2.00

Imperial Taro, the leaves are light green and beautifully blotched in dark violet colors, grows about 2 ft. high.

Each\$0.50

Violet Stemmed Taro, the deep green leaves are pronounced through the addition of dark red ribs, grows about 2 ft. high.

Each\$0.50

Calla Lilies, these old fashioned plants are still great favorites in the water garden. Can be supplied in the white or yellow flowering variety.

Each\$0.50

Double Flowering Arrowheads, they develop beautiful spikes of double flowers which are white and are very strong growers.

Each\$0.75

Variegated Sweet Flag (*Acorus calamus variegatus*). Each \$0.20 Per dozen \$1.50

New Water Fern, this water fern grows about 1 ft. high and must be planted in real shallow water. Foliage light green.

Each\$0.35

Four-leaved Water Clover (*Marsilia quardrafolia*). A shallow water plant, producing leaves resembling clover. Grows about 6 inches tall.

MAGIC WATER LILY FOOD

Beldt's Magic Water Lily Fertilizer
and Plant Food

Has been perfected after years of experimenting. Magic does not foul or sour the water in your pool and leaves it absolutely free of foreign colors. In our experimental pools Magic Water Lily Food proved that flowers will double in size and that especially newly planted water lilies and all other aquatic plants will make as much growth in one month as they would in two months if planted in ordinary soil. Use 1 pint of Magic Water Lily Food to mix with 1½ bushels of soil. Complete directions with every carton.

Tropical Water Lilies — Day Bloomer

Caerulea Blue—Ancient Blue Lotus of the Nile, flowers four to six inches across, carried well above the water, each\$1.00

General Pershing—A hybrid from Mrs. Whitaker and Castaliifolia. The pink flowers are delightfully fragrant and open early in the morning. Strong plants. Price each\$2.00

Mrs. George H. Pring—A new water lily, pure white in color, flowers 8 to 10 inches across. Very fragrant and prolific. Price each\$1.25

Henry Shaw—Named in honor of the founder of the Missouri Botanical Gardens. Flowers beautifully blue. Delightfully fragrant. Price each\$2.00

Zansibar Rosea—A delightful pink shaded day blooming lily producing flowers about 6 to 8 inches across, very free flowering. Price each\$1.00

William Stone—This is a beautiful and attractive deep blue purple lily. The flowers are 8 inches across and star shaped. Price each\$2.00

Edward C. Elliot—This is another new lily, produced by the Missouri Botanical Gardens. The fragrant pink flowers are produced in abundance. Price each\$1.50

***August Koch**—Produced in the lily pools at Garfield Park, Chicago, by Mr. August Koch. The flowers are purple lilac and the petals a pale violet color, 7 to 8 inches in diameter, open four to six days. Price each\$1.50

***Mrs. Edwards Whitaker**—The largest flowering day-blooming hybrid from Ovalifolia and Castaliiflora. Colors in shades of light blue or dark blue. Price each\$1.25

***Panama-Pacific**—A hybrid produced by William Tricker. The predominant color is reddish-purple and the stamens are yellow. Very fragrant and most prolific in blooms. Price each\$2.00

Blue Beauty—Deep blue, very fragrant flower, tender nymphaea producing flowers six inches across. Very strong and prolific. Does well in small pools or crowded conditions. Price each\$2.00

Mrs. Woodrow Wilson—A hybrid produced from Mrs. Woodrow Wilson and Castaliiflora. A dark lavender-blue flower, 8 to 10 inches across. Price each\$2.00

***Mrs. Sawyer (Independence)**—A new viviparous day blooming lily, the leaves are shaded with brownish red and the flowers are very deep pink. Very vigorous and free flowering. Price each\$1.50

***Dauben**—A well-known viviparous day bloomer. The small light blue flowers are produced freely. A good plant for small pools and aquariums. Price each\$1.00

***Marmarata**—This variety produces perhaps one of the most beautiful leaves of all tender nymphaeas. The leaves are medium green colored with large blotches and squares of brown. The flowers, which are 12 inches across, are blue on the first day they are open and gradually become lighter until they are almost white on the last day. Price each\$1.50

Rose Star (Mrs. Ward)—The flowers are carried well above water and get about 8 inches in diameter. They are of a beautiful rose-pink color with long golden stamens. Each\$1.50

Blue Star—A beautiful deep blue variety about 7 inches across, the flowers at times are carried 18 inches above water. A very strong grower and prolific bloomer. Each\$1.50

Colonel Lindbergh—A deep caerulean blue variety producing flowers up to 12 inches across which tower well above the water. The oval shaped leaves are blotched with brown. Each\$2.00

Ovalifolia—A large flowering light blue water lily. The flower is about 10 inches across. A very strong and prolific bloomer. Each\$1.50

Gracillis Rubra (Red Star)—This star lily has wine red flowers which like the other star lilies are carried well above water. Price each\$1.50

Zansibar Azurea—A beautiful purple-blue shade flower is produced on strong stems. Good plant for small pools, can stand lots of shade, very fragrant. Price each\$1.75

- Marliac Yellow**—Bright canary yellow.
Price, each.....\$0.50
- Eugenia De Land**—Flowers extra large, deep rose-pink, with yellow stamens.
Price, each.....\$1.00
- Gladstone**—Flowers 6 to 8 inches across, strong growing white lily.
Price, each.....\$1.50
- Hopatcong**—Native white lily, very hardy and a strong grower.
Price, each.....\$0.50

- Masaniello**—This French Hybrid produces beautiful pinkish cup shaped flowers, which are dotted with carmine. It is a free bloomer, and very fragrant.
Price, each.....\$2.00
- Gloriosa**—The blossoms are of a beautiful red shade, six inches across and very fragrant. It is a good plant also for tub culture, as the leaves are very small; however, is equally as well at home in very large pools.
Each\$2.50
- Marliacea Rosea**—Flowers are large and deep rose colored.
Price, each.....\$1.00
- Odorata**—Flowers are large white, a very prolific bloomer; the plants make rapid growth.
Price, each.....\$0.35
- Odorata Rosea**—Beautiful pink shaded flowers from 4 to 5 inches across. A good strong bloomer which produces flowers well above the water.
Price, each.....\$1.00
- Yellow Pygmy**—A small lily which is ideal for tub culture. The flowers, which are golden yellow, are from an inch to two inches across.
Price, each.....\$0.75
- Mexicana**—A deep yellow lily with smaller flowers about 4 inches across. Ideal for small pools or edging in large pools.
Each\$1.00
- Marliacea White**—Same as Marliac Rose, except pure white flowers.
Each\$1.00
- Comanche**—One of the finest hardy lilies with changeable color, which on opening day is of a rich apricot shade, changing later to a deep bronze.
Each\$1.50
- Sunrise (Giant Yellow)**—The largest and best of all yellow lilies, producing very large yellow blooms.
Each\$2.50
- Lucidia**—A beautiful deep red hardy lily and a very free bloomer.
Each\$2.50
- Aurora**—On the opening day this lily is light orange-red, changing to a very deep color as it gets older, on the third day.
Price\$0.75
- Flava**—A beautiful small yellow lily with flowers about 4 inches across, carried well above water. One of the deepest yellow.
Each\$1.50
- Helen Fowler**—A pink shaded lily; a strong grower and prolific bloomer.
Each\$1.00
- Morning Glory**—An exquisite soft shell pink, one of the best for cut flowers. The blossoms are about 5 inches across.
Each\$1.50
- Marliacea Carnea**—A beautiful flesh colored variety similar to Morning Glory; a very prolific bloomer producing flowers in abundance.
Each\$1.00
- Rose Magnolia**—A beautiful flesh pink colored hardy lily. A good bloomer.
Price, each.....\$1.00

What Our Customers Think About Our Aquariums and Aquarium Cement

Palma Sola, Fla.
Aug. 8, 1933

Beldt's Aquarium:

I received your No. 71 aquarium and it is satisfactory in every way.

H. W. Phelps

Charleston, S. C.
March 14, 1933

Beldt's Aquarium:

The large No. D-2 tank arrived yesterday, and I am well pleased with it, and far surpassed my expectations.

C. L. Fischer

Willmar, Minn.
May 10, 1933

Beldt's Aquarium:

Received the No. 72 aquarium today in perfect condition. Was very well pleased with it.

Carl Eder

New Ulm, Minn.
July 31, 1933

Beldt's Aquarium:

Enclosed please find check for your 207 aquarium. We received the other one that we ordered a week ago in very good condition, and am very well pleased with it.

Dr. Chas. A. Korth

Washington, Iowa
Feb. 20, 1933

Beldt's Aquarium:

The aquarium cement we ordered of your firm some two months ago worked beautifully. We used it in constructing a 52 gal. plate glass aquarium, and it never leaked a drop. We are very pleased with it.

Mrs. Ernest Louck

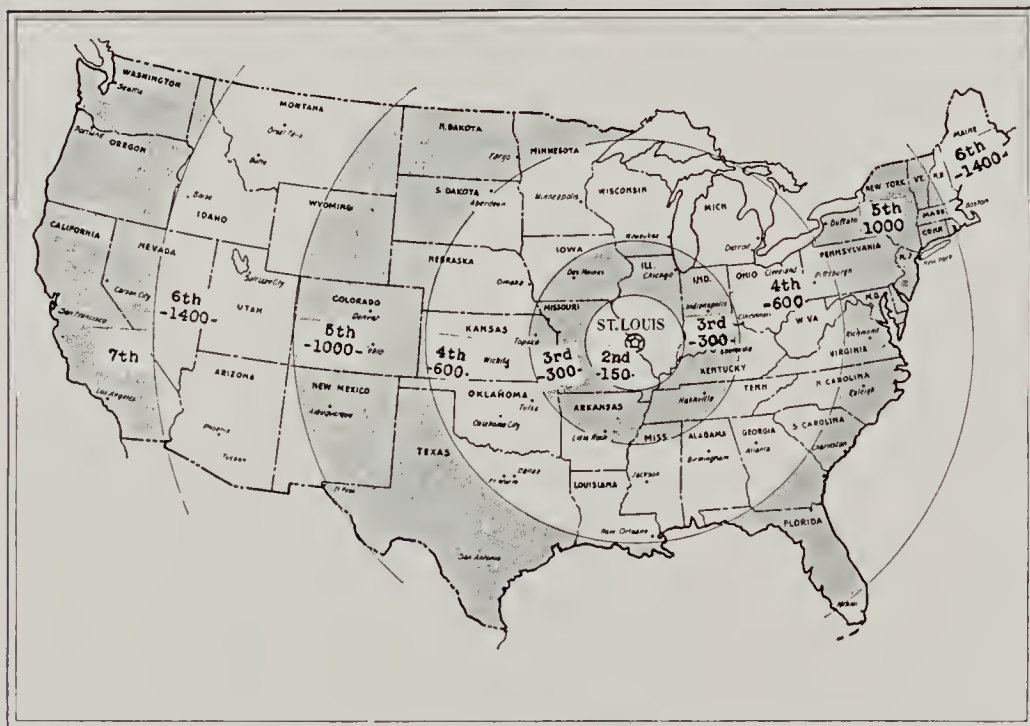

Greenville, Miss.
February 21, 1933

Beldt's Aquarium:

Just a note to let you know that aquarium arrived all right and to thank you for your prompt and courteous service. The aquarium is a beaut, and I am sending you an order for some tropical fish which I know will arrive all right.

Guy Drew, Jr.

E. Pittsburgh, Pa.
Aug. 1, 1933

Beldt's Aquarium:

The one-half dozen Betta Cambodia I ordered about a month ago arrived in fine condition, and are certainly growing fine.

C. E. Badger

Moorestown, N. J.
Sept. 27, 1933

Beldt's Aquarium:

I received the 60 watt heater No. 5 which I ordered from you earlier in the month. It was quite satisfactory. Enclosed you will find \$1.50 for another 60 watt heater.

Warren W. Maines

Jackson, Miss.
April 22, 1933

Beldt's Aquarium:

I received your letter since writing to you, and I wish to say everything is O. K. The lilies arrived in good condition.

Mrs. E. C. Hall

Havana, Cuba
July 25, 1933

Beldt's Aquarium:

I have pleasure in advising that order arrived per the S. S. "Zacapa" and that when I received the shipment 11 of the fish were in good condition, and only one was dead.

H. J. Oldham

Charleston, W. Va.
Jan. 7, 1932

Beldt's Aquarium:

I appreciate the extreme promptness of your service, and wish to inform you that both scavengers and plants arrived in excellent condition. It shall be a pleasure to do business with you in the future.

Robert E. Ulmer

Warren, Indiana
Jan. 13, 1932

Beldt's Aquarium:

My fish arrived on schedule time. I never saw nicer Sailfins, and am especially well satisfied.

Adrian Little

Texarkana, Ark.
March 3, 1933

Beldt's Aquarium:

I had my sister order some fungus remedy last week, and I helped her put it in her pond and the fish seem to be just fine already. It worked wonders on mine last year. Of course after I had lost my fancy ones, I am so sorry I did not get your fungus remedy before I lost them, but instead I tried everything else.

Mrs. Joe C. Wilson

West Liberty, Iowa
March 8, 1933

Beldt's Aquarium:

I have had such good results with your fungus remedy that I am recommending it to some friends who are having the same trouble with their fish.

Mabel Hormel

Graham, N. C.
Oct. 5, 1933

Beldt's Aquarium:

Just a few lines to let you know that I am very well pleased with the plants I got from you this summer. The lily is a very free bloomer.

E. E. McAdams.

Robertsdale, Pa.
April 5, 1933

Beldt's Aquarium:

I received your shipment of aquarium and pair each of sailfins and cardinal fish in excellent condition. I am very much pleased with them.

W. Earle Troutwein

Montreal, Canada
March 18, 1933

Beldt's Aquarium:

Some time ago I had fish, plants, food, etc. from you, all of which was very satisfactory. Send me copy of catalogue.

J. A. Schurman

Hannibal, Mo.
July 23, 1933

Beldt's Aquarium:

Enclosed find 50c for fungus remedy. I find it wonderfully effective for torn fins and red inflamed tails.

Mrs. C. E. Tucker

Orange, N. J.
July 18, 1933

Beldt's Aquarium:

I think you would like to know that your fungus remedy just cured two fish that were practically lifeless, over one night. This to me is a very good example of the rapidity in which Beldt's Fungus Remedy works. Countless other times it has cured my fish in the same manner. The water lilies which I recently received from you, are also an example of your fine products.

Joe Bonnet

Worcester, Mass.
Mar. 29, 1933

Beldt's Aquarium:

The plants you sent me last Spring look fine. Never lost one.

Mrs. R. G. Mears

Seymour, Conn.
Oct. 21, 1933

Beldt's Aquarium:

I am in receipt of the aquarium with which I am more than pleased.

C. H. Smith

Scottsville, Mich.
Oct. 6, 1933

Beldt's Aquarium:

Received the parcel. All was in good shape, and thanks for the extra.

Mrs. J. V. Randall

Charleston, S. C.
Sept. 4, 1933

Beldt's Aquarium:

I am well pleased with your products which I have ordered from you, and have found perfect satisfaction with everything so far. Am glad to recommend your firm to any one who may want to start the fish fancy.

H. S. McGillivray, Jr.
c/o Medical College of S. C.

General Directions to Customers

Forwarding—All shipments of live stock are forwarded via express; also all glass articles. We guarantee glass articles only if forwarded via express and in case of damage in transit will replace all articles gratis only if a bad order is obtained from express company and mailed to us. We do not pay express charges on replacements or on original orders. We do not guarantee live stock sent through mail.

We do not pay postage or expressage on any shipments. All price quotations in this catalog are strictly net F. O. B. St. Louis except on items listed postpaid. Do not remit any money to cover express charges as these are collected when the express man delivers the goods. If you desire items sent parcel post, make your remittance large enough to cover postage. We can not guarantee parcel post shipments against damage or loss.

Correspondence—We can not give detailed information concerning breeding habits, etc. of fish. In order to properly do so would require hours of writing concerning some of the varieties. Include with all inquiries a self addressed and stamped envelope.

Claims—We can not entertain claims unless they are made within 3 days upon receipt of shipment.

Cash with Orders—Please send sufficient money with order to cover the whole bill. We decline to ship "Collect on Delivery" unless 50% remittance be made to guarantee acceptance.

Shipping Cans—Orders for about two dozen fish or less are shipped in 35c cans which are not returnable. Except if you wish another shipment made you may return the old can prepaid. Goldfish are never shipped in thermos cans. Only tropical fish are shipped in thermos cans from Oct. 1 until warm weather. Also during summer Northern shipments to localities where nights are cold are benefited if shipped in thermos cans. A \$3.00 deposit is required on thermos cans which we refund upon receipt of empty can, which must be returned to us express prepaid. Empty cans can be returned from anywhere in the U. S. for only 20c prepaid.

We Guarantee the Live Arrival of Tropical Fish All Year Around. Subject to following conditions.

We will only cover losses in shipments if Express Company bad order report is returned to us, and also any dead fish received, must be returned. (Sprinkle a little salt on the fish and wrap in wax paper) so we may identify them, and replace them. We refuse to make any replacements however, unless lost fish are returned to us the same day shipment arrives, and bad order report is mailed to us, not later than three days after receipt of shipment. Our responsibility ceases when fish are delivered alive, and we do not guarantee results after arrival. We do not guarantee live delivery of tropical fish beyond the 5th zone, or more than 1000 miles from St. Louis. Any order received for fish farther than 1000 miles from St. Louis carries the agreement that they travel entirely at purchaser's risk.

Shipping Season—We ship everything listed in this catalog all year around. During cold weather tropical fish are shipped in thermos cans. Goldfish shipments cannot be made during extremely hot weather, and we cannot guarantee the live delivery of goldfish from May 10 to October 1; however, we ship them all summer, when weather conditions permit. We reserve the right to delay orders, should weather conditions arise that may call for delays on shipments, and such delay, in no way, should be a cause for cancellation of orders.

Canadian Shipments—Obtain a permit to import plants from the Department of Agriculture, Ottawa, Ontario. Send us permit number. You keep original.

Non-Warranty—Various conditions, such as unfavorable weather, improper planting, etc., may cause poor results. We send out only first quality stock, but we give no warranty as to productiveness or description.

Selecting Tropical Fish—Not all varieties listed can be shipped in one can. Customers desiring only such varieties that can be kept together in one aquarium should order those marked * which are known as "Happy Family Fish."

Pairs—Quite often a fancier wishes to match odd fish in order to pair them. You can purchase either sex at one half the catalog price as quoted for pairs.

Tropical Water Lilies

H. C. Haarstick—A new night bloomer, which has flowers of beautiful shades of lavender-pink. Large plants will produce flowers of 12 inches or more in diameter. They are very strong growers and bloomers, and one plant will produce as many as 150 flowers during the summer months. The leaves are reddish-brown in color. A feature which makes it so much more desirable is that the beautifully colored leaves add greatly to the attraction of the pool.

H. C. Haarstick should be in every collection.

Price, each **\$2.00**

Marmarata — A lavender-blue day bloomer. Here is another tropical lily with beautiful colored leaves. The color of the leaves is medium green with dark greenish-brown blotches. The leaves are an attraction as well as the large flowers which are produced in abundance.

Price, each **\$1.50**

Special Collection No. 11

1 H. C. Haarstick and 1 Marmarata
Special Price **\$3.25**

Water Lily Collection No. 17

No. 1—Blue Star
 No. 2—General Pershing
 No. 3—August Koch

Special Collection
 Price for this
 Crown Trio

\$4.75

THIS collection of tender water lilies will be suitable for pools of 6 x 10 ft. or larger. These flowers were photographed in natural colors and the back-ground shows a natural pool of Blue Star water lilies. This collection of tropical lilies will make a wonderful display in any pool, no matter how large or how small. We are offering this collection to those who desire strong bloomers, beautiful color shades, and fragrance.
